GOOD MANUFACTURING PRACTICE (GMP)

ABOUT GMP

MS 1514:2022 Good Manufacturing Practices (GMP) for Food is a comprehensive standard that food manufacturers must adhere to in order to meet regulatory requirements related to hygiene and good manufacturing practices. This certification ensures that products are safe for consumption by covering all aspects of good hygiene practices in food manufacturing. GMP certification is a prerequisite before implementing Hazard Analysis and Critical Control Points (HACCP), laying the foundation for higher-level food safety systems.

GMP certification is often considered a prerequisite for implementing more advanced food safety systems, such as Hazard Analysis and Critical Control Points (HACCP). HACCP is a systematic approach to identifying, evaluating, and controlling hazards in food production. GMP lays the groundwork by establishing the necessary hygiene and operational controls that HACCP builds upon.

Without GMP, the implementation of HACCP may be ineffective, as the basic conditions required to prevent contamination and ensure food safety might not be in place. Therefore, GMP certification is a critical step in developing a robust food safety management system that can meet higher-level standards and regulatory requirements.

BENEFITS

- **Assures Consumers:** Provides assurance to consumers that the brand practices ethical manufacturing standards for food production.
- **Enhances Company Image:** Improves the company's reputation in producing safe food.
- **Increases Competitive Edge:** Boosts the company's competitiveness in the international market.
- **Facilitates Regulatory Compliance:** Simplifies compliance with Malaysian Food Hygiene Regulations 2009 and Food Regulations 1985.
- **Combined Audits:** Offers combined audits with ISO 22000, HACCP, GMP, and ISO 9001 certification schemes to minimize disruption to the organization.
- **Expert Auditors:** Utilizes highly skilled, experienced, and competent auditors in the field of food safety.

SUSTAINABLE DEVELOPMENT GOALS

NIOSHCert aims to create impact collaboratively

SCAN ME

NIOSH CERTIFICATION SDN. BHD. (NIOSHCert) is a leading national certification body and a wholly owned subsidiary of the National Institute of Occupational Safety and Health (NIOSH), and the Ministry of Human Resources, Malaysia.
