

MS 2530

MALAYSIAN SUSTAINABLE PALM OIL (MSPO)

ABOUT MSPO

MS 2530 is the MSPO national mandatory certification scheme for Malaysian oil palm plantations, independent and organised smallholdings, palm oil processing facilities and dealers. MSPO certification, endorsed by Standards Malaysia, fills the need of a fair sustainability certification scheme to enhance the palm oil industry's global market access.

The MSPO standard MS2530-2022 is divided into a total of seven (7) separate parts that contains requirements used to assess conformity cater to the differences in capacity and scale of the implementers of the MSPO:

- **Part 2-1:** General Principles for Independent Smallholders (less than 40.46 hectares)
- **Part 2-2:** General Principles for Organised Smallholders (less than 40.46 hectares)
- **Part 3-1:** General Principles for Oil Palm Plantations (40.46 hectares to 500 hectares)
- **Part 3-2:** General Principles for Oil Palm Plantations (more than 500 hectares)
- **Part 4-1:** General Principles for Palm Oil Mill including Supply Chain Requirements
- **Part 4-2:** General Principles for Palm Oil Processing Facilities including Supply Chain Requirements
- **Part 4-3:** General Principles for Dealers including Supply Chain Requirements

The indicators for each user group vary, although the general principles are the same throughout. These are organised around five principles that cover:

- Management Commitment and Responsibility;
- Transparency;
- Compliance with Legal and Other Requirements;
- Responsibility to Social, Health, Safety and Employment Conditions;
- Environmental Protection, Natural Resources, Biodiversity and Ecosystem Services

BENEFITS

- Demonstrate strong commitment towards environmental protection, social responsibility and economic viability.
- Demonstrate support towards the Malaysian government's initiative and direction for sustainable management of palm oil industry.
- Demonstrate commitment and ensure compliance with applicable statutory and regulatory requirements, including the Environmental Quality Act 1974, MPOB Licensing Regulations 2005, Employment Act 1955, Occupational Safety and Health Act 1994.
- Increase organisational efficiency, effectiveness and profitability through continual process improvements.
- Enhance corporate image and branding, and improve access to global markets.
