

# MS 2530:2022

## MALAYSIAN SUSTAINABLE PALM OIL

### Course Description:

This Interpretation and Implementation Course provides practical techniques for planning, implementing and monitoring the effectiveness of sustainable practices based on the requirements of MS 2530:2022. The Malaysian Sustainable Palm Oil (MSPO) Standard is applicable to all organisations within the supply chain of palm oil production – comprising independent and organised smallholders' plantation, millers, refineries, kernel crushing plants, as well as those involved in the storage, transportation, distribution, management system development and any palm oil-related operations.

### Benefits:

- **Practical Application:** Participants learn how to interpret and implement the MS 2530:2022 standard's principles and criteria effectively.
- **Sustainability Compliance:** The course helps ensure compliance with global sustainability requirements, reducing accidents and enhancing legal adherence.
- **Continual Improvement:** Participants gain insights into monitoring and evaluating management systems for sustainability improvements

## WHAT WILL YOU LEARN:

- Overview of Malaysia Sustainable Palm Oil (MSPO).
- Explore the intent and interpretation of the individual clauses of MS2530: 2013
- The elements of the MS2530:2022 Management System – policies and procedures, management plan, internal audit and management review, and checking, monitoring and evaluation of the system training

## UPON COMPLETION, YOU WILL BE ABLE TO:

Demonstrate the requirements of MS2530:2022

Identify system elements and activities that are effective in monitoring and managing the sustainable practices in complying with the MS2530:2022, and provide a basis for continuous improvements

Develop and implement a management system which is compliant with the requirements specified in MS2530:2022

Demonstrate the fundamentals of MS2530:2022 standard requirements

## WHO SHOULD ATTEND?

- Business Owners / Consultant
- Government Officers / Executives
- Palm Oil Engineers
- Management Personnel

## CERTIFICATION:

Participants who successfully complete the course Certificate of Attendance.

## COURSE FEE INCLUDES:

- Certificate of Attendance
- Training materials

## REGISTRATION:

**RM 864.00**

# COURSE OUTLINE

## DESCRIPTION

Malaysian Standard on Malaysian Sustainable Palm Oil (MSPO) is the Government of Malaysia's commitment to ensure the country's palm oil is sustainable. This is achieved through a balance between environmental, societal and economic considerations to meet the needs of the present without compromising the ability of future generation to meet their needs, in line with the UN SDGs agenda.

The success of the MSPO depends on commitment from all levels and functions of the organisation, led by top management. Incorporating MSPO requirements into organisations' business processes, strategic directions and decision-making is another factor for successful implementation.

## OBJECTIVES

- To demonstrate requirements of MSPO
- To identify, assess and produced documented risk assessment based on operational activities as per required by MSPO.
- To identify and system elements and activities that are effective for managing palm oil and which provide a basis for continuous improvement.
- To demonstrate how to apply professional management principles and techniques to design, develop and implement comprehensive management system

## TOPICS

- Introduction to MSPO standard
- Details (clause by clause) for the following clauses and requirements:
  - Scope
  - Normative References
  - Terms and References
  - Principles and Criterias
    - Management Commitment and Responsibility
    - Transparency
    - Compliance to Legal and Other Requirement
    - Responsibility to Social, Health, Safety and Employment Condition
    - Environment, Natural Resources, Biodiversity and Ecosystem Services
