

ISO 45001:2018

OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT SYSTEMS

Course Description:

This 2-day ISO 45001 Internal Auditor training is designed to equip participants with the necessary skills and knowledge to effectively audit an Occupational Health and Safety Management System (OH&S) based on the ISO 45001:2018 and ISO 19011 standards. The course provides a comprehensive understanding of the requirements of ISO 45001 and the auditing process, enabling participants to conduct internal audits within their organizations.

Benefits:

- Gain proficiency in auditing ISO 45001-compliance OH&S management systems.
- Enhance organizational compliance with international standards.
- Improve risk management and occupational health and safety performance.
- Develop internal audit skills for continual improvement.
- Ensure a safer work environment and reduce workplace accidents.

Assessment:

A written examination and practical assessment will be conducted to evaluate participants' understanding and application of the ISO Management Systems auditing concepts.

WHAT WILL YOU LEARN:

- Introduction to ISO 45001 and its importance
- Overview of key concepts in occupational health and safety
- Understanding the ISO 45001:2018 standard and its requirements
- Principles of auditing and the internal audit process
- Planning and preparing for an internal audit
- Conducting an internal audit: techniques and best practices
- Reporting and communicating audit findings
- Corrective actions and continuous improvement in the context of ISO 45001
- Case studies and practical exercises to reinforce learning

CERTIFICATION:

Participants who successfully complete the course and pass the assessment will receive a Certificate of Achievement as Internal Auditor.

COURSE FEE INCLUDES:

- Certificate of Attendance / Achievement
- Training materials
- Examination fee

REGISTRATION:

RM 864.00

UPON COMPLETION, YOU WILL BE ABLE TO:

Understand the key principles and requirements of ISO 45001:2018.

Develop and apply internal auditing skills based on ISO 45001 standards.

Plan, conduct, report, and follow-up on internal audits effectively.

Report audit findings and communicate recommendations to stakeholders.

Implement corrective actions and follow up on audit results.

COURSE OUTLINE

DESCRIPTION

This training program is designed to equip participants with the knowledge and skills necessary to conduct internal audits of Occupational Health and Safety Management Systems (OHSMS) according to the requirements of ISO 45001:2018. Participants will gain a comprehensive understanding of the ISO 45001 standard, internal auditing principles, and practical audit techniques to assess the effectiveness of an organization's OHSMS.

OBJECTIVES

- Understand the fundamental principles and requirements of ISO 45001:2018 for Occupational Health and Safety Management Systems.
- Gain proficiency in planning, conducting, and reporting internal audits in accordance with ISO 19011:2018 guidelines.
- Develop the skills to identify non-conformities, assess risks, and recommend corrective actions to enhance the performance of an organization's OHSMS.

TOPICS

- Introduction to Occupational Health and Safety Management Systems (OHSMS)
- SO 45001:2018 Requirements
- Internal Audit Fundamentals
- Conducting the Internal Audit
- Reporting and Follow-up
- Practical Exercises and Case Studies

ASSESSMENT

Participants will be evaluated through attendance, punctuality, group activities, and a final assessment to ensure comprehension of key concepts and proficiency in internal auditing techniques. Successful completion of the training program will be accompanied by a Certificate of Achievement.
