

ISO 39001:2012

ROAD TRAFFIC SAFETY MANAGEMENT SYSTEMS

Course Description:

This 2-day training program is designed to equip participants with the knowledge and skills required to perform internal audits in accordance with the ISO 39001 standard for Road Traffic Safety Management Systems and ISO/IEC 17021-1:2015 Guidelines for Auditing Management Systems standard. The course provides a comprehensive understanding of the standard's requirements and focuses on practical auditing techniques to enhance the participant's ability to conduct effective internal audits.

Benefits:

- Gain a deep understanding of ISO 39001 standard and its application.
- Develop the skills to plan, conduct, report, and follow up on internal audits.
- Contribute to the improvement of road traffic safety management within your organization.
- Enhance professional credentials as a certified ISO 39001 Internal Auditor.

Assessment:

A written examination and practical assessment will be conducted to evaluate participants' understanding and application of the ISO Management Systems auditing concepts.

WHAT WILL YOU LEARN:

- Introduction to ISO 39001 and its importance
- Key principles of Road Traffic Safety Management Systems
- Overview of the ISO 39001 requirements
- Principles of auditing and the audit process
- Planning and preparation for internal audits
- Conducting effective audit interviews and observations
- Reporting and documenting audit findings
- Corrective actions and continuous improvement

CERTIFICATION:

Participants who successfully complete the course and pass the assessment will receive a Certificate of Achievement as Internal Auditor.

COURSE FEE INCLUDES:

- Certificate of Attendance / Achievement
- Training materials
- Examination fee

REGISTRATION:

RM 864.00

*Contact us for Inhouse Training quotation.

UPON COMPLETION, YOU WILL BE ABLE TO:

Understand the principles and requirements of ISO 39001.

Plan and conduct effective internal audits in compliance with ISO 39001.

Apply audit techniques to identify areas for improvement in the road traffic safety management processes.

Prepare accurate and concise audit reports.

Participate in the continual improvement of the RTMS through audit findings and recommendations.

COURSE OUTLINE

DESCRIPTION

ISO 39001:2012 provides a tool to help organizations reduce, and ultimately eliminate, the incidence and risk of death and serious injury related to road traffic crashes. This focus can result in a more cost-effective use of the road traffic system.

An internal audit one of the core processes in contributing towards effective implementation of ISO 39001:2012 at the workplace. Internal audit course in ISO 39001:2012 will benefit the organization to improve their performance by developing the necessary skills to assess and report on the conformance and implementation of processes based on ISO 39001.

The participants will learn how to initiate an audit, prepare and conduct audit activities, compile and distribute audit reports and complete follow-up activities.

OBJECTIVES

- Be able to prepare for conducting an audit based on ISO 39001:2012 standards.
- Know the process for conducting an audit.
- Write performance evaluation report.

TOPICS

- ISO 39001:2012 quick recap
- Auditing Elements
- Audit Planning
- Audit Preparation
- Audit Performing
- Non-Conformance Reporting
- Audit Reporting
- Report Assessment
